

Bandwidth Inc.
900 Main Campus Drive, Suite 100
Raleigh, NC 27606

Consultation Report

Bandwidth Inc. and its subsidiary, Voxbone S.A., are classified as T2 providers under regulations established by the Canadian Radio-television and Telecommunications Commission pursuant to the Accessible Canada Act.

General Information:

Bandwidth and Voxbone hold BITS and resale licenses from the Canadian Radio-television and Telecommunications Commission. Both Companies operate predominantly as wholesale providers

The address for Bandwidth's corporate headquarters is 900 Main Campus Drive, Raleigh, NC 27606.

The address for Voxbone S.A. is Av. Louise 489, Floor 5&6, 1050 Bruxelles, Belgium.

Consultations:

Bandwidth employs a Director of Global User Experience who is responsible for the implementation of accessibility standards across the Company's customer facing systems.

Any Canadian citizen or other agency may contact the Director of Global User Experience via email at letstalk@bandwidth.com.

Commitment to removing barriers

While Bandwidth does not have employees or office locations in Canada, the Company is committed to removing barriers for customers and employees and will comply with the ACA.

Bandwidth's commitment to the elimination of barriers is reflected throughout the organization. In the United States, Bandwidth complies with the Americans with Disabilities Act as well as other laws and regulations. Voxbone complies with similar regulations and laws in the jurisdictions where it operates such as Belgian non-discrimination laws (Laws of May 10th, 2007 relating to the fight against discrimination and xenophobias).

Bandwidth has made significant strides in eliminating and reducing barriers with respect to how customers access the Company's systems through its customer portal. The portal has been designed to comply with Web Content Accessibility Guidelines and eliminate barriers to accessibility.
